Redco Cicon Steel Cut & Bend Factory - Introduction

REDCO CICON first opened its doors for business at Qatar in 2010, as an UK CARES Certified company, has become an undisputed market leader in the Rebar Cut and Bend Industry.

REDCO CICON with its vast experience, knowledge and innovative approach, the company takes full responsibility for ensuring that the client's project meets every quality requirement and specification. Its business activities include the supply of:

- Deformed steel bars - 20,000 tons per month
- Cut & Bend Steel - 20,000 tons per month
- Mechanical Splice - 100,000 pieces per month
- Steel cages for piles - 2500 tons per month
- Shop drawing and BBS preparation

Redco CICON provides its clients with the highest quality of materials and service at the most competitive rates. REDCO CICON's expertise has been called upon for a number of Qatar's most important and prestigious projects, such as Doha Metro, Mega Reservoirs, Fifa World cup stadiums, Msheireb Downtown, Lusail Expressway and Lusail LRT.

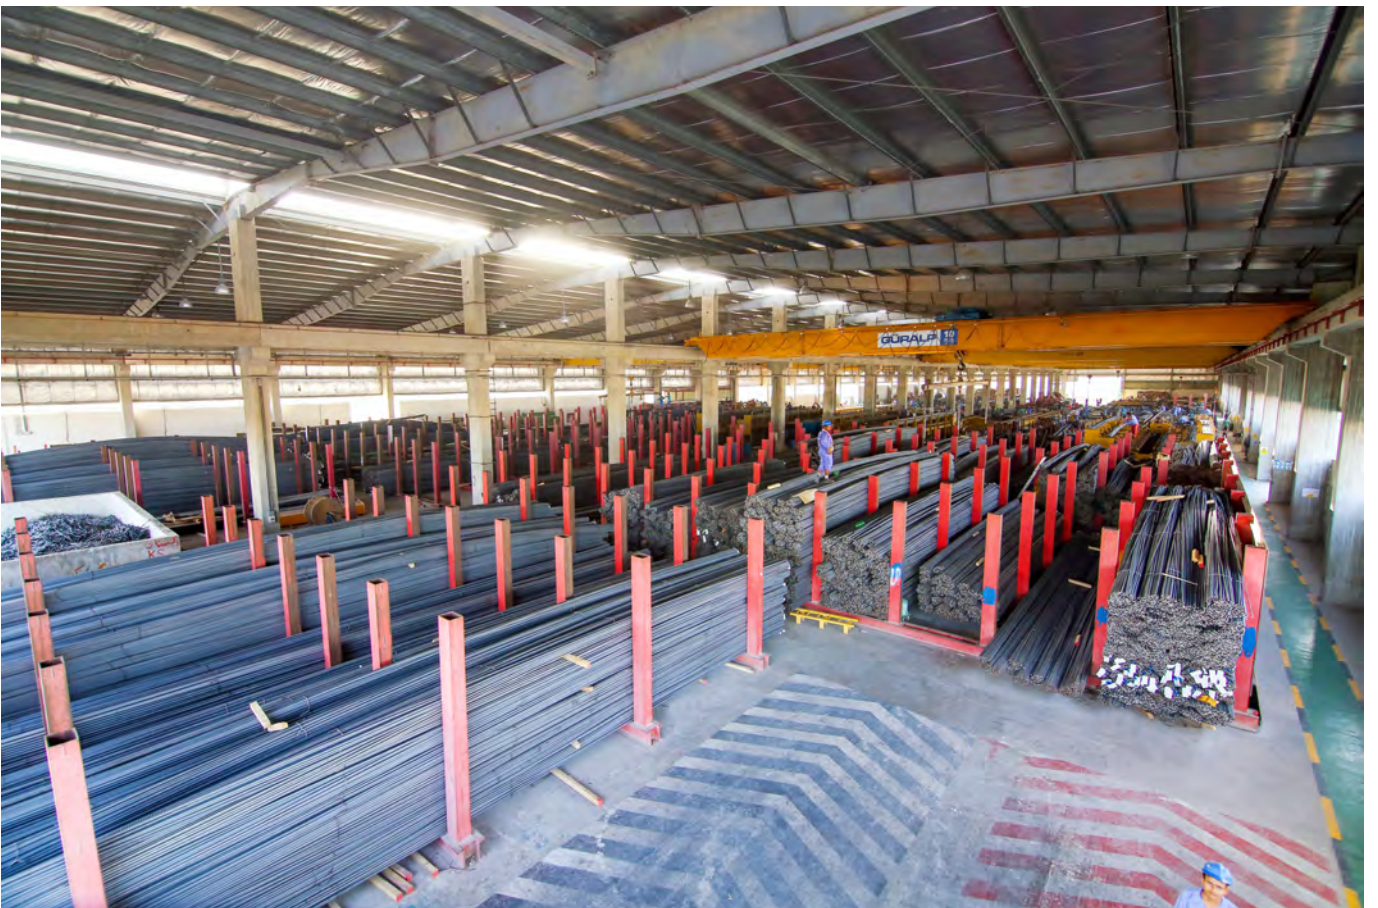

In a relatively short period of time, the company has achieved an unparalleled reputation among the major contractors, consultants and project managers in the construction industry. In fact, REDCO CICON has set a new benchmark in a fiercely competitive sector.
